

Profile

Experienced Java Spring Boot back-end developer with 3+ years of experience in developing complex web applications. Proficient in Java, Spring Boot, Hibernate, RESTful APIs, MySQL, and databases. Track record of delivering high-quality code on schedule. Skilled in independent and collaborative work, with strong problem-solving and communication abilities. I am committed to continuous learning and staying abreast of industry trends.

Skills

Java, SpringBoot, Microservices, Restful APIs, Hibernate, JPA, AOP, Swagger API, Kafka, MVC, Problem Solving, MySQL, Git

Education

University of Hyderabad

–Master of Computer Application (CGPA: 7.18)

Bhupendra Narayan Mandal University

–Bachelor of Computer Application (Per: 80%)

Telangana, Hyderabad

Jul 2019 – Jul 2022

Madhepura, Bihar

Jul 2015 – Jul 2018

Professional Experience

Jocata Financial Advisory & Technology

- Hyderabad, India

Software Engineer

Feb 2023 – Present

Project: TCL.PL.CD.EMI (Personal Loan Consumer Durable)

Tech Stack: Java, Spring Boot, Hibernate, JPA, AOP, REST APIs, Microservices, Swagger API, MySQL, Git

- Developed a bot for Ops Maker to automate document management, generating consolidated PDF reports and KFS PDFs, reducing processing time by 30% and enhancing efficiency.
- Standardized exception handling and comprehensive logging, ensuring 100% reliability, traceability and faster debugging.
- Refactored code for optimization, improving performance by 20% and aligning with project requirements.
- Digital signatures integrated into customer documents enable secure email delivery and ensure standards compliance.
- Swagger-integrated configuration auto-generates API documentation, speeding API testing and third-party integrations.

Associate Software Engineer

Aug 2022 – Feb 2023

Project: TCL.MONEYFY

Tech Stack: Java, Spring Boot, Hibernate, MySQL, REST APIs, Microservices, MySQL, Git.

- Designed and developed a comprehensive investment application, increasing customer engagement and retention by 20%.
- Seamlessly integrated diverse client portfolios and the Bharat Bill Payment System (BBPS), reducing manual effort by 25%.
- Implemented document management by enabling secure Digilocker integration, resulting in a 40% faster retrieval time.
- Optimized code across Microservices, achieving 15% faster response times and seamless global exception handling.

Associate Software Engineer Intern

Feb 2022 – Aug 2022

Loan Calculator Project (Loan Against Security)

Tech Stack: Java, Spring Boot, Hibernate, MySQL, HTML, Angular, Typescript, Git

- Built a Loan Calculator with Angular, HTML, TypeScript, Spring Boot, reducing errors by 95%, enhancing user experience.
- Improved front-end UI and back-end reliability, enabling 20% faster feature deployments.

Academic/Personal Projects

Microservices - Gym Website Project - Web Series Video Storage

Languages: Hindi, English
